

REUSABLE RANGE

RE'BOX

Reuse in catering

A revolution in Consumer Practices

ISO 9001-14001 certified, Firplast has been committed for several years - through its sustainable development policy - to offering **reusable containers to meet restaurant owners and new laws expectations.**

In order to go even further in its CSR and responsible approach, the Firplast group developed a global reusable offer which now includes **conception, production and consignment for those new containers.**

Re'Box: the 1st universal reusable range for every foodservice and hospitality activities

A range co-developed with and for restaurant owners.
